

# 1958 VOLKSWAGEN BEETLE

Possibly the most recognizable car on the planet, the “Bug” changed the way we view transportation. Cheap to buy, easy to repair, and loaded with character and endearment, the “People’s Car” is the longest running production vehicle. It is also the most produced vehicle in history. The Beetle has shown its iconic status as the star in *The Love Bug* (1968) and *Bumblebee* (2018), and its cultural significance on the cover of The Beatles *Abbey Road* album.

Rare Agave Green paint with tan interior

1192 CC/36 HP Air-cooled Engine

First year for the large “square window”

Correct 1958 fine spine steering wheel
